Foundation of the State Arboretum
At the University of Virginia's Historic
Blandy Experimental Farm
The natural world is full of weird and wonderful things: animals that glow in the dark, plants that eat animals, birds that migrate thousands of miles, bolts of electricity that rip out of the clouds, and so much more. We'll learn how biologists and other scientists explore these and other parts of nature through observations, hands-on activities (no, not the lightning!), crafts, and games.

Cost per camp
$110 FOSA members, $130 nonmembers

If more than one child or camp:
$100 FOSA members; $120 nonmembers

Register by mail, with a credit card by calling 540-837-1758 Ext. 224, or online at blandy.virginia.edu/our-foundation/online_payments
Registration and prepayment required to hold space; no refunds after June 15.

Partial scholarships available based on need; call 540-837-1758 Ext. 287 to inquire.
Save $10 — Register by April 15th

EcoExplorers
July 20-24, 2015
9 a.m.-Noon
For rising 5th-8th Graders

Blandy’s EcoExplorers ask questions about the natural world, then work with our scientists to answer these questions using observation and experimentation. Participants collect and analyze data and present their results to campers, parents, and staff on Friday morning. Investigate the plants and animals of Blandy’s meadows, woodlands, and ponds, and experience the excitement of discovery!

International Nature Camp
July 13-17, 2015
9 a.m.-Noon
For rising 2nd-4th Graders

Take a “journey” around the world. We will use Arboretum trees from distant regions as a way to investigate plants, animals, foods, cultures, and environments from Asia, Africa, Europe, and other far-flung parts of the planet. Fasten your seat belts!

Our Mission
To increase understanding of the natural environment through research, education, and public outreach.
