Wildlife Detectives

June 25-27, 2018

Note longer days:

9 a.m.-3 p.m.

For rising 2nd-4th Graders

Animals use all their senses to survive in nature—and so will we! Explore nature using all five senses as we search for mammals, birds, insects, and more. We'll uncover clues ranging from tracks in the mud to calls

in the treetops to evidence of insects feeding on plants. Get out your magnifying glass, tune up your senses, and prepare to unravel nature's mysteries!

Kids need nature and nature needs kids!

Explore the natural world through observation, experimentation, and hands-on activities. Campers will work in small groups with leaders, naturalists, and Blandy's scientists.

Register Now!

\$110 FOSA members,
\$130 nonmembers

If more than one child or camp:
\$100 FOSA members; \$120 nonmembers

Register by mail, with a credit card online
at [blandy.virginia.edu/our-foundation/
online_payments](http://blandy.virginia.edu/our-foundation/online_payments)

Or call 540-837-1758 Ext. 224

M-F 1-5 p.m.

Registration and prepayment required to
hold space; no refunds after June 4.

Scholarships available

Call 540-837-1758 Ext. 287 to inquire.

Phenomenal Plants And Their Animals

July 9-13, 2018

9 a.m. - Noon

For rising 2nd-4th Graders

We are surrounded by amazing plants—from mosses to wildflowers to trees—that are used by animals (including us!) for food and shelter. We will explore the world of plants in search of the animals that hide in them, live in them, and eat them. What do you think we will find?

EcoExplorers

July 16-20, 2018

9 a.m.-Noon

For rising 5th-8th Graders

Did you know Blandy is a field research station where scientists study nature? EcoExplorers work in pairs to ask a question about the natural world, then work with our leaders and scientists to collect and analyze data to answer their question. They will present results to campers, parents, and Blandy staff on the last day. Come explore our meadows, ponds, and woodlands and experience the thrill of discovery!

Our Mission

To increase understanding of the natural environment through research, education, and public outreach
