Notes:

UVa figures represent the authorized state salary average rather than the actual average. It is intended to exclude all endowment funds.

All medical faculty have been excluded from the above salary averages.

The Boston University averages for 1997-98, 1998-99, 2000-01, and 2001-02 are estimates obtained by applying the sample group's average increases to Boston's average from 1996-97 or 99-2000.

In 1996-97 and 1997-98, UC Berkeley received 5% increases on November 1 instead of at the beginning of the year.

Estimates of those increases have been included in the above figures even though they were not included in the AAUP report.
