UNIVERSITY OF VIRGINIA
BOARD OF VISITORS AGENDA ITEM SUMMARY

BOARD MEETING: June 9, 2005

COMMITTEE: Student Affairs and Athletics

AGENDA ITEM: I.B. Student Alcohol Use

ACTION REQUIRED: None

BACKGROUND: At colleges across the country, high-risk drinking, and the negative consequences associated with it, continues to be a national concern. The University takes seriously the problem of irresponsible and dangerous drinking among students. Although most University of Virginia students do not experience serious alcohol-related problems, alcohol use is prevalent among, and accepted by, many students and contributes to a variety of negative outcomes. Ensuring the health and safety of students is a University-wide priority.

University of Virginia prevention programs are based on the belief that effective programs are science-based, comprehensive, and coordinated across the University. The culture of student self-governance at the University ensures that students are significantly engaged in the decision-making process.

DISCUSSION: Dr. James C. Turner, Executive Director of Student Health, and Ms. Susan E. Bruce, Director of the Center for Alcohol and Substance Education, will report on national trends with regard to alcohol use among college students, how those trends compare with University of Virginia data, and the many ways in which the University continues to address this issue through a variety of educational programs and approaches.
