RE: Minutes of the Meeting of the Medical Center Operating Board
on June 10, 2010

The Medical Center Operating Board of the Board of Visitors of the University of Virginia met, in Open Session, at 8:30 a.m., Thursday, June 10, 2010, in the Board Room at the Medical Center; E. Darracott Vaughan, Jr., M.D., Chair, presided.

Daniel R. Abramson, William P. Kanto, Jr., M.D., Ms. Constance R. Kincheloe, Randy J. Koporc, Vincent J. Mastracco, Jr., The Hon. Lewis F. Payne, Edward J. Stemmler, M.D., and John O. Wynne were present. Randl L. Shure participated by telephone.

Steven T. DeKosky, M.D., John B. Hanks, M.D., R. Edward Howell, and Leonard W. Sandridge, all *ex officio* Members, also were present.

Present as well were A. Macdonald Caputo, Ms. Helen E. Dragas, Stewart H. Ackerly, Arthur Garson, Jr., M.D., Robert S. Gibson, M.D., Larry Fitzgerald, Ms. Lynne Fleming, Ms. Patricia L. Cluff, Ms. Sally N. Barber, Robert H. Cofield, Karen Johnston, M.D., A. Bobby Chhabra, M.D., Ms. Karen Rendleman, Marshall D. Ruffin, Jr., Ms. Lori Strauss, Eric Strucko, Ms. Susan G. Harris, and Ms. Jeanne Flippo Bailes.

The Chair welcomed the Board members to the meeting and thanked Edward Stemmler, M.D., and John Hanks, M.D., for their service on the Medical Center Operating Board. He also recognized Eric Strucko, the interim Chief Executive Officer of the Health Services Foundation, and thanked Marc Dettmann for his years of service as CEO of the Health Services Foundation.

The Chair asked Mr. Howell to proceed with the agenda.

Mr. Howell introduced Mr. Fitzgerald to present the budget.

Action Item: Fiscal Year 2011 Medical Center Operating Budget

Mr. Fitzgerald said the gap in the budget was narrower and the Medical Center has done well. Every unit is in excess of budget on operating margin. He said the case mix index is very high, and coding and documentation are extremely important to improving the case mix index. Dr. Kanto added that outpatient volume is also important. Mr. Wynne said the transitional care hospital was included in the budget and he would like to see each entity set out separately next year. Mr. Fitzgerald agreed.

Mr. Fitzgerald said the budget assumptions include a variety of factors such as ten additional beds, a transitional care hospital which will only have a census of 3 for the first six months because of federal regulations which will cause it to operate at a loss for this period, a rate increase which is likely to be 8%, and employee raises totaling 2.5%.

Budget challenges include completing several construction projects this year; the conversion to new space is difficult for a hospital. Mr. Fitzgerald said over time the transitional care hospital will be beneficial even if it just breaks even because it will free up beds in the main hospital. He expects the transitional care hospital to do better than breaking even.

Mr. Fitzgerald explained that although there is a budgeted operating margin, every penny of cash is committed to cover debt payments, non-routine capital, and the capital budget. The fiscal year 2011 budgeted operating margin is 4.9%. This is the same as the benchmark median.

Mr. Wynne observed that "quality" metrics should be in the budget as an objective.

On motion, the Board adopted the following resolution:

RECOMMENDATION REGARDING FISCAL YEAR 2011 MEDICAL CENTER
OPERATING AND CAPITAL BUDGETS

WHEREAS, the Medical Center Operating Board has reviewed the Fiscal Year 2011 Medical Center operating and capital budgets;

RESOLVED, the Medical Center Operating Board endorses and recommends to the Finance Committee and to the Board of Visitors approval of the Fiscal Year 2011 Medical Center operating and capital budgets.

Action Item: Transitional Care Hospital Governing Board

Mr. Howell said that at the May 2007 meeting, the Board approved the development and construction of a Long-Term Acute Care Hospital which was subsequently named the Transitional Care Hospital (TCH). This is a free-standing facility intended to qualify for specialized payment from Medicare. The Transitional Care Hospital's function is to relieve the bed crunch in the main hospital and to be a financially viable facility.

Mr. Howell said to qualify for the special payment designation, certain conditions must be met, including creating a separable line of governance with medical staff credentialing separate from the Medical Center. The resolution proposed is an authorization from the Board of Visitors to designate the Medical Center Operating Board as the governing body for the TCH. Medical Staff by-laws and other more specific documents for the TCH must be approved by the Medical Center Operating Board before the TCH opens.

On motion, the Medical Center Operating Board adopted the following resolution:

DESIGNATION OF THE MEDICAL CENTER OPERATING BOARD AS THE GOVERNING BOARD OF THE TRANSITIONAL CARE HOSPITAL

RESOLVED, the Board of Visitors approves the designation of the Medical Center Operating Board as the governing board of the University of Virginia Transitional Care Hospital for The Joint Commission purposes, responsible for overseeing and directing the operations of the University of Virginia Transitional Care Hospital as delegated by the Board of Visitors.

Vice President and CEO Remarks

Mr. Howell said patient volume increased in the second half of the year, particularly April and May. This improved the overall financial performance for the year.

Mr. Howell reported that the Medical Center has achieved its target for patient satisfaction and the Emergency Department was recognized by Press Ganey with a "Journey of Improvement". He commended the staff for this achievement.

The Culpeper Regional Hospital partnership continues to mature, and Mr. Howell indicated that several new initiatives are underway including consolidating their Home Health Program with the University's which has resulted in savings and an expansion of the Home Health system.

Mr. Howell mentioned that the Radiology Department has received a Safety Star Achievement Award from the Virginia Department of Human Resource Management and that the Health System hosted a visit by Secretary of Technology James Duffey on May 26th. They discussed with Secretary Duffey the Electronic Medical Record and using technology to train residents.

Mr. Howell concluded his remarks by mentioning the events of Hospital Week which included providing pizzas and snack boxes to night and off-site employees, and serving 6460 meals to employees.

Vice President and Dean Remarks

The Chair called on Dr. DeKosky, Vice President and Dean of the School of Medicine, for his remarks.

Dr. DeKosky said 22 of the 131 students who matched on "Match Day" for residency programs will stay at the University. University students will also go to Harvard, Hopkins, Penn, Columbia, and Duke. The highest number of students will be training in pediatrics (27)

followed by internal medicine (25) and emergency medicine and family medicine (10 each).

Dr. DeKosky said a number of faculty have been recognized as leaders nationally. University awards were given to Drs. Parsons, Horwitz, Guerrant, Weber, and Lynch. The School of Medicine website contains more information about faculty honors and positions.

Dr. DeKosky talked about the entering class of medical students. There were 4,286 applicants for the entering class, with a target of 148 matriculants. Right now, 158 applicants have accepted offers and so some will be deferred until next year. Dr. DeKosky said he believes the popularity of the University is because of the new curriculum and the new medical education building. The makeup of the class is 96 male, 62 female, with 29% underrepresented minorities.

Dr. DeKosky spoke briefly about the new deans and the curriculum, explaining the goals of the "NexGen" curriculum which includes mastery of the 12 competencies required of the contemporary physician. He said Margaret Shupnik, M.D., has been chosen as the Senior Associate Dean for Research replacing Eric Hewlett, M.D.

Dr. DeKosky mentioned that grant funding was holding steady with more training grants per capita faculty than any other institution. He said the School is known as a place that trains researchers. He reviewed the total external funding of the School and the NIH awards for 2009-2010. He also spoke briefly about quality, specifically mortality, which has improved from 1.18 to 1.09. The goal is 0.08 or the 25th percentile, which they plan to achieve through a multi-pronged mortality improvement project. Length of stay continues to be a concern. A patient throughput group is looking at the issues.

Dr. DeKosky announced the naming of a new chair of Pediatrics, James P. Natoro, M.D., PhD, MBA, who comes from the Division of Infectious Diseases and Tropic Pediatrics at the University of Maryland School of Medicine.

Dr. DeKosky concluded by mentioning that 186 University physicians were named as the Best Doctors in America, 47 made the Top Doctors list, and 17 were named as the top cancer doctors.

Operations Report

Mr. Howell called on Mr. Cofield to give the report on Operations. Mr. Cofield said they are restructuring the patient safety program. The planned enhancement includes modified patient safety committee structure and processes, more consistent assignment and response to adverse events, and a streamlined root cause analysis

process. He said the engagement of the chairs was necessary to improve quality.

Mr. Cofield also reported that Continuum Home Health Care exceeded the national standards for all home health agencies in the Press Ganey patient satisfaction database for 2009 and achieved Tier 1 status in Employee Engagement for the second consecutive year.

Health System Development

The Chair called on Ms. Rendleman to give a report on development activities. Ms. Rendleman said the Medical Center is focused on a bridge campaign goal of \$112 million. Priorities include providing funding for the Battle Building, the Emily Couric Clinical Cancer Center, the Education Resource Center, and naming the Transitional Care Hospital.

Annual Compliance Report

Mr. Howell said each year the MCOB receives a report on compliance activities within the Health System. This is a CMS requirement of all hospital governing bodies in their regulatory oversight role. He introduced Ms. Strauss who gave the report which focused on the requirements of the Health Information Technology for Economic and Clinical Health Act (HITECH Act) and how the University is responding to its requirements. The Act requires notifications to several parties in the event of an unauthorized release of patient information.

Annual Buchanan Report and Clinical Presentation

Mr. Howell said the Buchanan program provides funding for new clinical initiatives. He introduced Karen Johnston, M.D., and Marshall Ruffin, M.D., co-chairs of the Buchanan awards committee. They gave a summary of the Buchanan awards from 2003 to 2010, and said one team was awarded funding for the 2009-2010 cycle. The program processes are being enhanced for 2010-2011 and awards will be announced in January 2011.

Dr. Johnston introduced a 2003 Buchanan awardee, A. Bobby Chhabra, M.D., from the Hand Center. Dr. Chhabra said the goal of the project is to enhance comprehensive care by fostering collaboration and improving patient access with the ultimate goal of providing all service in one location. This is the first step toward developing a National Center of Excellence for Hand and Upper Extremity Care. The Hand Center opened February 18, 2010 in the Fontaine Research Park. The clinic has a patient focused approach with dedicated, specialty trained staff. Patient access is a focus with guaranteed same week appointments.

Electronic Medical Record

Mr. Howell introduced Dr. Ruffin to update the Board on the electronic medical record (EMR) project. Dr. Ruffin said the purpose of implementing the EMR is to improve quality of care and quality of systems. All systems will be implemented within 25 months. This is a patient-centered common record system. The EMR project is on schedule and within budget. Issues they are focused on include scope creep and inadequate training of staff. Mr. Howell said they asked the Gartner Group to conduct an independent assessment of the scope, timelines and budget for the project, and they have received affirmation that the EMR initiative is on target. A second audit will be conducted this fall.

Report by the President of the Clinical Staff

The Chair introduced Dr. Hanks to provide a report from the clinical staff. Dr. Hanks spoke briefly about the clinical staff retreat in January 2010. He handed out to the Board an executive summary of the retreat. He said that this is his final report – he is turning it over to Dr. Gibson on July 1. He thanked the Board, Ed Howell, Dr. DeKosky, and Mr. Sandridge for their support during his term as President of the Clinical Staff. He also praised Dr. Gibson for all that he has done up to this point.

The Chair thanked Dr. Hanks for his service to the Medical Center Operating Board and presented him with a University of Virginia ink pen.

EXECUTIVE SESSION

After adopting the following motions enabling it to meet in Closed Session, the Medical Center Operating Board went into Executive Session at 10:30 a.m.:

That the Medical Center Operating Board go into Closed Session to consider proposed personnel actions regarding the appointment, reappointment, resignation, assignment, performance and credentialing of specific clinical staff members and allied health care professionals. The foregoing motion is authorized by Section 2.2-3711 (A) (1), of the Code of Virginia. The Closed Session of the Medical Center Operating Board is further privileged under Section 8.01-581.17 of the Code of Virginia.

That the Medical Center Operating Board go into Closed Session to discuss proprietary, business-related information pertaining to Medical Center personnel, financial, fundraising, market and resource considerations and efforts regarding the Medical Center, including potential strategic joint ventures or other competitive efforts where public disclosure would adversely affect the Medical Center's competitive position; to consider confidential information and data related to the adequacy and quality of professional services, patient safety in clinical care, review of proprietary Medical Center performance measures and metrics and patient grievances all for the purpose of improving patient care; and, in consultation with legal counsel, discuss the Medical Center's compliance with relevant federal reimbursement regulations, licensure and accreditation standards, and negotiations concerning performance of a contract and related litigation, which will also involve proprietary business information of the Medical Center, and evaluation of the performance of specific Medical Center personnel, and where disclosure at this time would adversely affect the competitive position of the Medical Center. The foregoing motion is authorized by Sections 2.2-3711 (A) (1), (6), (7), (8), and (22) of the Code of Virginia. The Closed Session of the Medical Center Operating Board is further privileged under Section 8.01-581.17 of the Code of Virginia.
