

Substance Abuse Awareness Week 2010

Remember the game!

94% of 4th years intervene to stop friends from hurting themselves.

"Step Up and Make a Difference!"

Annual Susan Grossman Memorial Lecture

Featuring Becky Bell and Dr. Scott Goldman

Tuesday, November 9th @ 7:30 PM

Newcomb Theater

Have you or anyone you know ever been concerned about a situation and wanted to help . . . but didn't? You're not alone. This situation is more common than you might think and is known as the bystander effect. Becky Bell (founder and creator of the STEP UP! Bystander Intervention program) and Dr. Scott Goldman of the University of Arizona will use interactive technology, videos, and discussion to teach what bystander behavior is, why it happens, and what steps you can take to help a friend in need. The presentation will focus on the knowledge and skills needed to intervene in alcohol-related incidents. This annual event is held in memory of Dr. Susan Grossman, an assistant professor of psychiatric medicine at U.Va. and the founding director of prevention programs for what is now the Gordie Center for Alcohol and Substance Education.

FOA Opportunity

Presented by:

The Women's Center, the Office of the Dean of Students, the Department of Athletics, and the Department of Student Health's Gordie Center for Alcohol and Substance Education
