

2011 Spring CCU Lecture Series

Date	Title	Speaker
March 23	Testing the Limits of Complex Organic Chemistry in the Interstellar Medium	Susanna Widicus Weaver Assistant Professor of Chemistry Emory University
May 4	Excursions on high-dimensional potential energy surfaces	Joel Bowman Samuel Candler Dobbs Professor of Chemistry Emory University
May 11	Gas Phase ion Chemistry - From the Laboratory to the Interstellar Medium	Veronica Bierbaum Professor of Chemistry University of Colorado, Boulder
