Payroll - several issues

Some people had extra taxes taken out on their last paychecks. They should be refunded this week. Taxes over the summer are confusing, some people had to pay FICA and some didn't. Are the people who payed going to get that money returned or are the people who didn't going to be responsible for paying on their income taxes? We will send a representative to Dr. Burnett to discuss these issues.

Also it was suggested that a tax professional be brought in to hold a seminar to explain taxes possibly in Feb when everyone has their forms.

Health insurance

Put notice on website about renewing

Website – ok make sure group pages are there, add a mailing/phone list possibly, lab contact information, and newsletters.
