

Section 23

Water and Sewer Connection Fees, 2000

The *Code of Virginia* §15.2-2122 authorizes sewer connection fees to finance changes in the sewer system that improve public health. Localities may establish, construct, improve, enlarge, operate, and maintain a sewage disposal system with all that is necessary for the operation of such system. The terms under which the locality can charge a fee are defined in §15.2-2119.

Table 23.1 provides the water and sewer connection fees for the 38 cities,

48 counties, and 118 towns that report imposing these fees. Due to the complexity of the schedule of fees for some of the localities, we are unable to show entire schedules in the table. In some cases, we provide a range over which the rates fall or, if this is not possible, we simply denote the fee as "varies." If there is a question about the listing for a locality, please contact the locality directly. (See Appendix B for a listing of respondents' phone numbers.)

Table 23.1
Water and Sewer Connection Fees, 2000

Locality	Water Connection and Meter Fee (\$)	Sewer Connection Fee (\$)
Cities	Note: All cities responded to the survey. Those that answered "not applicable" for all items in this table are excluded.	
Bedford	500 within city; 1,000 outside	500 within city; 1,000 outside
