

Section 6

Property Tax Exemptions for Certain Rehabilitated Real Estate and Other Exemptions, 2002

The *Code of Virginia* provides that localities may adopt an ordinance allowing property tax exemption for certain rehabilitated commercial and industrial real estate (§58.1-3221) and residential real estate (§§58.1-3220 and 58.1-3220.1). To be eligible for the exemption, the rehabilitated structure must be at least 15 years old if it is residential property, and 20 years old if it is commercial or industrial property, and must meet other restrictions that the locality may require. Real estate upon which a hotel or motel, no less than 35 years of age, that has been substantially renovated may also qualify for a partial exemption. The ordinance, in addition to any other restrictions, may restrict exemptions to real property located within described districts whose boundaries are determined by the governing body. Further, exemptions do not apply to residential real estate if a structure that has been rehabilitated through demolition and replacement is a registered Virginia Landmark or is determined by the Department of Conservation and Recreation to contribute to the significance of a registered historic district (§58.1-3220).

A locality may impose a fee for applications for real property tax exemptions and credits for rehabilitated structures. Effective in 2001, §§58.1-3220, 58.1-3220.1, and 58.1-3221 were amended to incorporate a fee of not more than \$125 for residential properties and not more than \$250 for commercial, industrial, and/or apartment properties of 6 units or more.

In order to qualify for the partial exemption, multifamily residential units substantially rehabilitated by replacement for multifamily use cannot exceed the total square footage of the old by more than 30 percent. The replacement for commercial and industrial use may exceed the total square footage of the replaced structure by no more than 100 percent and by no more than 110 percent in designated enterprise zones.

The partial exemption from property taxation may be an amount equal to a percentage of the increase in assessed value resulting from the renovation or to an amount up to 50 percent of the cost of the renovation. The commissioner of the revenue or another local assessing officer determines the assessed value of the structure. The exemption begins on January 1 of the year following completion of the reha-

bilitation, with maximum exemption periods of 10 years for residential real estate and 15 years for commercial and industrial real estate. Localities may opt to shorten the time span, to reduce the amount of exemption in annual steps over the entire period or a portion of the time limitation, or both.

Table 6.1 contains information about the 31 cities, 14 counties, and 7 responding towns that have adopted a rehabilitation ordinance. The table also includes the minimum age requirement, the exemption schedule, and the percentage increase in assessed value required for exemption.

Any county, city, or town may grant exemption or partial exemption from local taxation on certified pollution control equipment and facilities. Section 58.1-3660 lists the requirements to qualify for this exemption as the following: any property, including real or personal property, equipment, facilities, or devices used primarily to reduce or prevent pollution of the atmosphere and waters of the Commonwealth.

A similar exemption or partial exemption is authorized by §58.1-3661 for certified solar energy equipment, facilities, or devices. These certified items are defined as any property, including real and personal property, equipment, facilities, or devices which collect or use solar energy for water heating, space heating or cooling, or other applications which would otherwise require a conventional source of energy such as petroleum products, natural gas, or electricity.

Generating equipment installed after December 31, 1974, for the purpose of converting from oil or natural gas to coal or to wood, wood bark, wood residue, or to any other alternate energy source for manufacturing and any cogenerating equipment installed since that date to be used in manufacturing are classified separately for property taxation. According to §58.1-3662, localities may adopt an ordinance authorizing exemption or partial exemption for generating and cogenerating equipment used for energy conversion. The ordinance becomes effective on January 1 of the year following the year of adoption.

The four exemptions applying to property used for pollution control, recycling, solar energy, and energy conservation are summarized in **Table 6.2**. There are 18 cities, 29 counties, and 5 responding towns that report having at least one of the previously mentioned exemptions.

Note: Unless stated otherwise, exemption is equal to 100 percent of increase in assessed value resulting from rehabilitation. Additionally, for all localities listed, allowable percentage increase in total square footage for residential real estate is 15 percent; for commercial/industrial real estate, existing footage restrictions follow slash mark.

Key to real estate abbreviations: C/I: Commercial and Industrial R: Residential
N/A Not applicable.

^a City of Buena Vista has two classes of real estate; Class I--structures aged 50-75 years; Class II--structures over 75 years old.

^b Applies to South Norfolk section only--census tracts 201, 202, 203, 204.

^c Structure must have been constructed prior to January 1, 1945.

^d Retail structures (75 percent of street level area must be used for retail purposes): 1st- 5th = 100 percent, 6th = 83 percent, 7th = 67 percent, 8th = 50 percent, 9th = 38 percent, 10th = 17 percent; not retail structures: 1st-5th=50 percent, 6th = 42 percent, 7th = 34 percent, 8th = 25 percent, 9th = 17 percent, 10th = 9 percent.

^e No requirement for new area. Original building size must not be reduced by greater than 75 percent.

^f Fredericksburg has 15 percent increase limitation, not 15 percent increase requirement.

^g Ordinance includes only single family residential/commercial real estate.

Note: Unless stated otherwise, exemption is equal to 100 percent of increase in assessed value resulting from rehabilitation. Additionally, for all localities listed, allowable percentage increase in *total square footage* for residential real estate is 15 percent; for commercial/industrial real estate, existing footage restrictions follow slash mark.

Key to real estate abbreviations: C/I: Commercial and Industrial R: Residential
N/A Not applicable.

... No response provided.

^h Limited to first \$500,000 of increased value.

ⁱ Class I: all real estate in city except in enterprise zone; Class II: all real estate in enterprise zone.

^j For a structure with historic building designation, the exemption schedule is ten years.

^k Ordinance includes only single family residential/commercial real estate.

^l Ordinance does not allow total square footage of C/I property to be increased.

^m Minimum age is only 15 years within enterprise zones.

ⁿ Structure must be in historic district.

^o Minimum age in enterprise zones is only 15 years.

^p Structure must be deemed historic.

Note: Unless stated otherwise, exemption is equal to 100 percent of increase in assessed value resulting from rehabilitation. Additionally, for all localities listed, allowable percentage increase in *total square footage* for residential real estate is 15 percent; for commercial/industrial real estate, existing footage restrictions follow slash mark.

Key to real estate abbreviations: C/I: Commercial and Industrial R: Residential

N/A Not applicable.

^a 100 percent of increase in assessed value, exempted for 10 years; increase cannot be result of increase in square footage or additions.

^r 100 percent of increase in assessed value exempted for 10 years; \$500,000 maximum exemptions.

^s Due only to rehabilitation of structure without enlargements or additions.

^t Real estate which has been substantially rehabilitated, renovated or replaced is partially exempt for 10 years (following completion) from real estate taxation. To be considered "substantial," cost of rehabilitation, renovation, or replacement must be no less than 30 percent of assessed structure value before changes. If structure is demolished/replaced, the following restrictions apply:

(1) replacement of multi-family (with 5 or more units) may not exceed the total square footage of replaced structure by more than 30 percent and (2) replacement of commercial/industrial structures may not exceed total square footage of replaced structures by more than 110 percent in enterprise zone or 100 percent in other areas.

^u Hotels/motels must be no less than 35 years old.
