

Section 5

Agricultural and Forestal Districts, 2004

Local governments are permitted to enact a local ordinance providing for the creation of agricultural and forestal districts. Such districts are intended, as the *Code* states, "... to conserve and to encourage the development and improvement of the commonwealth's agricultural and forestal lands for the production of food and other agricultural and forestal products." The districts also "... conserve and protect agricultural and forestal lands as valued natural and ecological resources which provide essential open spaces for clean air sheds, watershed protection, wildlife habitat, as well as for aesthetic purposes." The authority for such districts is provided by the *Code of Virginia*, §§15.2-4300 through 15.2-4314 (Agricultural and Forestal Districts Act) and §§ 15.2-4400 through 15.2-4407 (Local Agricultural and Forestal Districts Act).

In accordance with the Agricultural and Forestal Districts Act, each district must have a core of no less than 200 acres in one parcel or in contiguous parcels. However, districts of local significance created under the act may be as small as 20 acres.¹ Further, the local governing body must review each district within 4 to 10 years after its creation and every 4 to 10 years thereafter. For additional information relating to the creation of the districts, see § 15.2-4305 of the *Code*.

LAND USE VALUE ASSESSMENTS AND AGRICULTURAL AND FORESTAL DISTRICTS

Land devoted to agricultural and forestal production within an agricultural and forestal district qualifies for special assessments for land use whether or not a local land use plan or special assessments ordinance has been adopted, provided that the land meets the criteria set forth in § 58.1-3230 et seq. of the *Code* (see also § 15.2-4312).²

Table 5.1 presents information for all cities, counties, and towns which reported agricultural and forestal districts. The table includes the district creation date, the acreage of the district(s) and the review period for each district. Three cities, 27 counties, and 3 towns report having an agricultural and forestal district ordinance in effect for the 2004 tax year. The localities reporting the most acreage in agricultural and forestal districts are the counties of Accomack, Albemarle, Culpeper, Fauquier, and Loudoun and the City of Chesapeake.

Section 4 provides details on the related program of land use assessments.

¹ Under provisions of the Local Agricultural and Forestal Districts Act, only counties satisfying the following conditions are empowered to establish districts with this reduced acreage requirement: (1) county has an urban county executive form of government or is adjacent to a county with an executive form of government, and (2) population size ranges from 63,400 to 73,900 or from 85,000 to 90,000.

² For additional effects of agricultural and forestal districts, see §15.2-4312 of the *Code*.

**Table 5.1
Agricultural and Forestal Districts, 2004**
