

Section 21

Refuse and Recycling Collection Fees, 2007

Virginia localities collect, or authorize to have collected, refuse and recycled materials. In its survey, the Cooper Center inquired into the methods and fees for the collection of refuse and recycled materials. The answers are provided in four tables covering regular refuse pickup, tipping fees, recycling, and pickup of miscellaneous refuse items.

REFUSE COLLECTION

Table 21.1 shows information reported on refuse collection by all 39 cities, and by 35 counties and 122 towns. The table contains information on frequency of collection, collection fees, and private contracting. There are three methods of operation. First, some Virginia localities levy a specific refuse collection service fee for the costs of collection. Others cover collection costs within general tax revenues. Finally, some localities provide no service, but leave refuse collection to private contractors.

A majority of cities and counties provide residential services on a weekly basis. Only the cities of Bedford, Fredericksburg, Lexington, and Williamsburg, and the counties of Appomattox, Arlington, Buckingham, Chesterfield, Halifax, and Wythe offer collections more frequently. Regarding fees, 28 cities, 10 counties, and 65 towns impose a residential refuse collection service fee. In addition, 10 cities, 15 counties, and 55 towns contract with private firms for refuse collection.

Table 21.2 shows tipping fees charged by various localities. Localities reporting imposing such fees include 13 cities, 27 counties, and six towns.

RECYCLING PROGRAMS

Table 21.3 provides data on localities that have instituted recycling programs. As with refuse collection, these programs may be financed in a variety of ways. Many localities pick up recyclables and then finance the collection with a service charge. Other localities contract with a private firm. Table 21.3 indicates which localities offer collection of recyclables and which contract the collection with a private firm. It also indicates the monthly fees associated with collecting recyclables.

Of the total survey respondents, 35 cities, 77 counties, and 77 towns indicated carrying out some form of recycling activity. Fourteen cities provided recycling collection directly and 21 contracted it out. Thirty-four counties provided services directly while 43 contracted them out. Of the towns, 12 had their services provided by the county, 30 provided direct services, and 35 contracted for services. For localities that charged a service fee, the amount ranged anywhere from 75 cents to \$17 per month.

MISCELLANEOUS REFUSE ITEMS

Table 21.3 covers any items requiring special pickup. Six cities, 20 counties, and 14 towns provided detail on collection fees for such special refuse items.

**Table 21.1
Refuse Collection Fees, 2007**

Locality	Frequency of Collections per Week	Collection Fee (Dollars Per Month)*	Locality Contracts with Private Firm(s) for Refuse Collection
