United Kingdom Fellows Program 2016

The UK Fellows Program allows graduating U.Va. students the opportunity to teach and live abroad in a UK boarding school for one year. Fellows participate fully by assisting with classes, sport, and residence life. The best candidates are mature, responsible individuals who are eager to get involved. Teaching experience, formal or informal is helpful but not required. The ability to help coach a sport, even if it’s not your greatest strength, is a plus.
