Short History of the University

Thomas Jefferson founded the University of Virginia in 1819. He envisioned an institution dedicated to educating leaders in practical affairs and public service rather than for professions in the classroom and pulpit exclusively. It was the first university in the United States to use the elective course system.

Jefferson was closely involved in every aspect of the University's original design, from planning the curriculum and recruiting the first faculty to designing the Academical Village, which consists of a terraced green space called the Lawn and surrounding residential and academic buildings and gardens. At the north end of the Lawn stands the Rotunda, the most recognizable symbol of the University.

The University opened for classes in 1825 with a faculty of eight and 68 students. It offered instruction in ancient languages, modern languages, mathematics, moral philosophy, natural philosophy, chemistry, law and medicine.

In 1824 the Board of Visitors, the University's governing body, authorized granting the master of arts degree. The University awarded the first doctor of medicine degree in 1828, with the first bachelor of laws degree following in 1842. In 1899 the bachelor's degree became the standard undergraduate degree and a prerequisite for the master's degree, bringing the University in conformity with other U.S. institutions of higher learning. The University has awarded the doctor of philosophy degree since 1883.

STATE APPROPRIATIONS

In 2010-11, for the first time in four years, the University did not experience a reduction in state appropriations. U.Va. does, however, expect a reduction of \$14.8 million in 2011-12. For all divisions of the University, the state provides 6.3 percent of the 2010-11 budget. The remaining 93.7 percent comes from other funding sources.

The University continues to receive significantly less state funding per student than other leading public universities. In 2009-10 the commonwealth appropriated \$9,469 per in-state student, while the University of Maryland received \$21,438 per in-state student and the University of North Carolina—Chapel Hill received \$26,034 per in-state student.

All University divisions	\$150.4 million
Academic Division	\$136.4 million

Market Value of Endowment

LONG-TERM INVESTMENT POOL

The University's endowment is a vital source of sustainable private support for instruction, service and research. Most of the University's endowment is held in the Long-Term Investment Pool managed by the University of Virginia Investment Management Company (UVIMCO).

The Long-Term Investment Pool consistently ranks among the five largest endowments of public institutions and among the 30 largest of all colleges and universities in the nation. In addition, U.Va.'s endowment per student has consistently ranked among the largest in the nation for a public university. As of June 30, 2010, U.Va.'s endowment and endowments held by related foundations in the Long-Term Investment Pool stood at \$175,785 per student, a 9.6 percent increase over the year before.

THE ENDOWMENT (as of June 30, 2010)

Total Long-Term Investment Pool	\$4.45 billion
Rector and Visitors' Endowment	\$2.78 billion
Affiliated organizations	\$969 million
U.Va. operating funds	\$708 million

ENDOWMENT SPENDING

In September 2009, the Board of Visitors reset the University's endowment spending, which resulted in an annual endowment distribution for fiscal year 2010-11 of 5.3 percent of the June 30, 2010, market value of the Long-Term Investment Pool. The endowment distribution in the current fiscal and academic year will total \$143.9 million.
