*The degree candidates in this program were applicants for degrees as of May 1, 2015. Distinction and honor notations in this program are based on coursework completed as of the end of the Fall 2014 semester and may be adjusted based on coursework from Spring 2015.

The August 2014 and December 2014 degree recipients precede the list of May 2015 degree candidates in each section.
A History of Final Exercises
at the University of Virginia

So astute was Mr. Jefferson in determining the basic educational policy for the University of Virginia that the policy has seen very little change in the University’s 196-year history. The colorful ceremony you will see today, however, would not have been held under Thomas Jefferson’s original plan, which did not provide for degrees and diplomas. Although the early students of the University were highly respected for their knowledge, some of them petitioned the Board of Visitors for diplomas to improve their opportunities for employment.

Out of deference to the founder, the Board took no action on these requests during Jefferson’s lifetime, but fifteen months after his death, it changed the policy and directed that plans be laid for the first “Public Day” (commencement). In July 1829, the first Public Day was held in the Dome Room of the Rotunda. The program was very long, and it included orations by students. By 1848, the program began with a procession led by students and involved a single address by a prominent person.

Public Day was held in the Dome Room until the Rotunda annex was completed in 1853. It was then held in the public hall of the annex until the Rotunda and the annex burned in 1895. When Cabell Hall was completed in 1898, the Public Day programs were held in its auditorium. President Alderman’s inauguration in 1905 brought about the more formal procession as seen today. It is now led by a faculty grand marshal.

When the McIntire Amphitheatre was completed in 1921, it became the site for the final exercises. A sudden drenching rainstorm disrupted the 1949 ceremony, sending the soaked graduates and guests into any shelter they could find. The threat of sudden storms and the increased number of graduates caused President Colgate Darden to declare that the 1952 ceremony would be the last to be held in the amphitheatre. Since then, Finals have been held on the Lawn except in bad weather.

Even when the ceremonies were held in the amphitheatre, the participants marched from the Rotunda, down the Lawn to the site of the ceremony. Students have long considered it a high privilege to have the opportunity to walk down the Lawn at Finals, and today’s students place an even greater importance on this privilege. So important to many of them is the ceremonial walk down the Lawn, that a number of students, cheated out of a ceremony on the Lawn by bad weather, “confirm” their graduation by processing down the Lawn after Finals.

Through 1961, the president conferred the degrees and handed each recipient a diploma. By this time, graduates numbered in the thousands. The ceremony had become much too lengthy and the logistics too complex. Beginning in 1962 and continuing today, degrees are conferred in a main ceremony by the president. Degree recipients and their guests then reassemble later in school and department ceremonies.
The Academic Procession

The Procession
The academic procession is led by the grand marshal of the University bearing the official silver and ebony mace. Most of the processioners wear the academic costume accepted by a majority of the principal institutions of higher learning in the United States, though certain academic officials, such as the rector of the University, wear particular costumes indicative of current office. The processional order is listed below.

The Gown
The processional gown is usually black; the design of the sleeves denotes the type of degree being conferred. The bachelor's sleeve is long and pointed. The master's sleeve has squared ends, with the arc of a circle near the bottom and a slit for the arm near the elbow. The doctoral sleeve is bell-shaped with three velvet bars. The doctoral robe has full-length velvet panels in front, either black or a color that symbolizes the wearer's field of learning.

The Hood
A separate ornamental fold hangs down the back of the gown, and its lining carries the colors of the college or university granting the degree (for the University of Virginia, orange and blue). An outside band of velvet varies in width according to the degree: two inches for bachelor's degree, three for the master's, and five for the doctorate. The color of the band and other velvet on the doctoral hood symbolizes the field of learning (such as dark blue for philosophy). The length of the hood also varies with the level of the degree: bachelor's, three feet; master's, three and one-half feet; and doctorate, four feet. Bachelor's and master's degree candidates often do not wear their hoods.

The Cap
The cap is usually the black mortarboard, decorated with a tassel. Gold tassels may be worn by holders of doctoral degrees, and some master's tassels are white. Generally, the colors of the tassels represent the principal fields of learning and are described below.

The Honorable Terry McAuliffe

Terry McAuliffe is the 72nd Governor of Virginia. Since being sworn into office, Governor McAuliffe has aggressively focused on building a new Virginia economy. He has conducted a series of trade missions, including two to China. As a result, he has brought thousands of jobs and billions of dollars in investment to communities across the Commonwealth.

To ensure that Virginia remains competitive, the Governor has implemented major economic development initiatives designed to strengthen the Commonwealth's pro-business climate, ensure efficient investment in world-class infrastructure, and develop a 21st-century workforce capable of meeting the needs of emerging businesses and industries.

Governor McAuliffe is committed to making sure that in a new Virginia economy, every person will have an equal right to succeed, regardless of his or her race, gender, religion, or sexual orientation. In his first executive order, he banned discrimination against LGBT state employees, and he has worked to make sure Virginia is in compliance with a federal court ruling that overturned the state's previous ban on same-sex marriage.

The Governor is committed to fighting for the nearly 800,000 Virginia veterans who have served their country. He expanded the Virginia Values Veterans initiative, which encourages employers to recruit, hire, train, and retrain veterans. He has also worked to facilitate partnerships that increase Virginia veterans' access to health care, and he is committed to ending veteran homelessness in Virginia.

Governor McAuliffe developed a 10-step plan, A Healthy Virginia, to improve and expand access to health care for more than 200,000 Virginians, including veterans, individuals with serious mental illness, low-income pregnant women, and working families.

He has made unprecedented progress on the restoration of civil rights to rehabilitated felons who have completed their sentences and paid their debt to society.

The Governor has worked with a bipartisan coalition of state leaders and educators to reform the Standards of Learning, eliminating five tests and creating an independent commission to make the tests work better for all Virginians.

Governor McAuliffe has fulfilled his promise to block any legislation that would erode women's access to quality health care. He directed the Virginia Board of Health to revisit onerous regulations that threatened to shut down women's health clinics, ensuring that these facilities remain available to provide essential services like cancer screenings and regular checkups.

Governor McAuliffe attended Catholic University and Georgetown Law School. He is a lifelong entrepreneur who started his first business at age 14 and went on to create more than two dozen companies. At age 30, he became the nation's youngest bank chairman.

Governor McAuliffe previously served as Chairman of the Democratic National Committee from 2001 to 2005, was co-chairman of President Bill Clinton's 1996 re-election campaign, and was chairman of Hillary Clinton's 2008 presidential campaign. He wrote a New York Times bestselling biography about his life in politics and business entitled What a Party! My Life Among Democrats: Presidents, Candidates, Donors, Activists, Alligators, and Other Wild Animals.

He and his wife Dorothy were married in 1988 and have five children.

Final Words to the Class, Ms. Sullivan

Academic Recession, The Good Old Song

We request that the audience remain in place until the academic recession has passed.
Bob Bruner is the eighth Dean of the Darden Graduate School of Business Administration. Mr. Bruner has authored and co-authored 22 books and over 300 case studies, and has served as the founding Executive Director of Darden's Batten Institute for Entrepreneurship and Innovation. As an award-winning faculty member and international lecturer and researcher, Mr. Bruner has revitalized business educational curricula and literature, advanced the mission and success of the Darden School, and set a new precedent for business management teaching quality.

During his time as Dean of the Darden School, Mr. Bruner and his team led two curriculum design efforts to focus on entrepreneurship, innovation, globalization, and diversity. His research and teaching foci include mergers and acquisitions, corporate finance, and financial panics. Author and co-author of Case Studies in Finance, The Panic of 1907: Lessons Learned from the Market's Perfect Storm, Deals from Hell: M&A Lessons that Rise Above the Ashes, and The Portable MBA, Mr. Bruner has established himself in business management literature for years to come. He and his team raised $150 million for the Darden School through a capital campaign and launched Darden’s MBA for Executives and the Global MBA for Executives.

Born in Chicago, Mr. Bruner received a B.A. from Yale University in 1971, followed by M.B.A. and D.B.A. degrees from Harvard University, respectively, in 1974 and 1982. Between degrees, he worked as a loan officer and investment analyst at the First Chicago Corporation. After returning to Harvard to work on his D.B.A., Mr. Bruner began teaching a finance class to part-time undergraduate students at Northeastern University, inspiring him to pursue academia as a permanent career. In 1982, he moved to Charlottesville and joined Darden as an assistant professor.

Mr. Bruner is the Charles C. Abbott Professor of Business Administration and Distinguished Professor of Business Administration at the Darden School, and had served as a faculty member for 23 years before assuming his role as Dean in 2005. As Founding Executive Director of Darden's Batten Institute, he helped establish a fellows program and encouraged the creation of new courses – more recently, expanding Darden's Business Incubator, which supports early business ventures with access to funding and an entrepreneurial community of faculty and students.

Outside of the Darden School, Mr. Bruner served as a member of the Board of Directors for the Graduate Management Admission Council, which administers the GMAT. He also served as Chair of the Board of the Consortium for Graduate Study in Management, an alliance of 15 leading business schools and top corporations that aims to enhance diversity in business education and leadership.

A social media pioneer, Mr. Bruner (@Bob_Bruner) is a prolific tweeter and blogger, who shares his passion for business, his students, and his James River kayaking adventures, among other things. Mr. Bruner transformed the accessibility of the Dean's office, hosting nights of “Monopoly with the Dean” at his home, celebrating Thanksgiving with international students, and attending Darden's First Coffee with students. He and his wife Bobbie live in Charlottesville and have two sons. In July 2015, Mr. Bruner will step down from his position as Dean and embark on a one-year research leave before returning to the classroom. Dean Bruner's efforts in global engagement, commitment to students, and technological innovation have advanced U.Va.'s leadership in the teaching of business administration.

BIOMEDICAL ENGINEERING

Ali Haider Dhanalivala
Dissertation: In Situ Microbubble Production via Flow-Focusing Microfluidic Devices as a Means to Achieve Large Transiently-Stable Microbubbles to Improve Image Contrast and Drug Delivery

Geoffrey Gale Handsfield
Dissertation: MRI and Computational Modeling of In Vivo Muscular Tendon Architecture and Function

Nivedita Kikkeri Naresh
Dissertation: Myocardial Ischemia Without Obstructive Coronary Artery Disease: Perfusion MRI in Mouse Models

Sunil Unnikrishnan
Dissertation: Red Blood Cells and Disturbed Hemodynamics in Microbubble Targeting

CHEMICAL ENGINEERING

Jacob A. Irwin
Dissertation: In Vitro and In Vivo Characterization of Novel Small-Molecule Alzheimer’s Disease Amyloid-Beta Therapies

Juan A. Lopez-Ruiz
Dissertation: Decarboxylation of Carboxylic Acids over Supported Metal Catalysts

Tariq Albert Vetter
Dissertation: Step-Induced pH Gradients Generated with Mixed Resin Beds for Protein Chromatography

Yige Wu
Dissertation: Protein and VLP
School of Engineering & Applied Science

Adorption on Perfusion Chromatography Media and Monoliths

CIVIL ENGINEERING
Sampson Kwasi Asare
Dissertation: Exploring the Benefits of Integrated Corridor Management: The Role of Pricing

Jiaqi Ma

Brian Keith Weaver
Dissertation: Gas-Expanded Lubricants for Increased Energy Efficiency and Control in Rotating Machinery

Huanghui Zeng
Dissertation: Improving Pavement Management and Assessment through Connected Vehicle Technology and Highway Safety Analysis

COMPUTER SCIENCE
Sirajum Munir
Dissertation: Integration of Cyber-Physical Systems for Smart Homes

ELECTRICAL ENGINEERING
Alla Aksel
Dissertation: Automated Tracking and Analysis of Aerial Surveillance Data

Naser Aljahburi
Dissertation: Submillimeter-Wave Quasi-Vertical GaAs Schottky Diodes Integrated on Silicon Membranes

Robert Richard Benoit
Dissertation: RF MEMS for Cryogenic Applications

Lijun Li
Dissertation: Characterization of Novel Optoelectronic Semiconductor Materials and Devices

Redwan Noor Sajjad
Dissertation: Unconventional Carrier Transport and Switching with Graphene PN Junction

Wenhu Sun
Dissertation: Theoretical Study and Monte Carlo Simulation of III-V Compound Photodiodes

Marshall Enow Tabetah
Dissertation: Computational Study of Molecular Transfer and Nanoparticle Generation in Matrix-Assisted Pulsed Laser Evaporation: the Roles of Solvent and Photochemical Reactions

Xu Wang
Dissertation: Resource Assignment for Fiber Optic Networks

Jimrong Yuan
Dissertation: Design, Fabrication, and Characterization of Novel Multi-Channel Photodetectors Using Post-Growth Approaches in the Near Infrared and Short-Wave Infrared Regimes

Chunhu Zhang
Dissertation: Development of Single-Ended and Balun Integrated Probes for THz Applications

MECHANICAL AND AEROSPACE ENGINEERING
Eun Suk Oh
Dissertation: Asymmetric Splitting of Bose-Einstein Condensate

Adam Kyle Woodson
Dissertation: Ion Composition in Titan’s Exosphere via the Cassini Plasma Spectrometer

MATERIALS SCIENCE AND ENGINEERING
Samuel B. Madden
Dissertation: The Effects of Per-manganate and Other Selected Chemical Inhibitors on Surface and Crack Tip Corrosion

MECHANICAL AND AEROSPACE ENGINEERING
Matthew Linton Bauer
Dissertation: Nanostructure Dictating Thermal Transport in Heterogeneous Material Systems

Saeid Dousti
Dissertation: An Extended Reynolds Equation Development with Applications to Fixed Geometry Bearings and Squeeze Film Dampers

Ryan Frederick Johnson
Dissertation: Multidimensional Reacting Flow Simulation with Coupled Homogeneous and Heterogeneous Models

Swapnil Pravin
Dissertation: Fluid Mechanics of Chemical and Flow Sensing in Aquatic Animals

Mehdi Saadat
Dissertation: Some Physical Mechanisms for Efficient Swimming

The Lawn, Central Grounds, & Hospital

Bus stop for accommodative shuttles on Saturday and Sunday – McCormick Road in front of Special Collections Library
The Good Old Song

That good old song of Wah-hoo-wah,

We'll sing it o'er and o'er;

It cheers our hearts and warms our blood

To hear them shout and roar.

We come from old Virginia

Where all is bright and gay;

Let's all join hands and give a yell

For the dear old UVA.
