

Wait List

The wait list allows you to request a seat in a class that is full and be added automatically if a seat becomes available.

Wait List

If you attempt to add a class that is full, if the class is set up to allow a wait list the system will ask you if you want to be placed on a wait list. You have the option of designating one of your current classes to be dropped out of if you are successful in getting into the wait-listed class.

Classes that are full and have an active wait list are identified by a yellow triangle icon. To place yourself on the wait list, check the “Wait list if class is full” box and proceed through the rest of the enrollment process as usual.

As space becomes available in the class, the system will automatically enroll students from the wait list in a “first-on, first-off” manner. You will receive an email telling you when you have been added into a wait-listed class, and you will also see the new class in your schedule.

At any time after you get on a wait list, you can use the Edit feature to select or change which class you want to drop if you are enrolled in the wait listed class.

For multiple-component classes—such as lecture and lab/discussion—you will not be added into the class unless a seat opens up in both components. Ultimately, your position for the lab/discussion can be more important than your position for the lecture.

You cannot get on a wait list if it is not your time to enroll or if you do not meet the class requisites.

You cannot be added off a wait list if the add causes a time conflict or exceeds your school’s credit limit, or if you have a hold. The system will skip over you and try again the next time a space becomes available. Be sure to designate a “drop if enroll” class to improve your chances of getting off a wait list.

Add Classes
