MEMORANDUM

TO: C1 Permit Holders

FROM: Rebecca White, Director

DATE: August 30, 2007

RE: Event Impact on the C1 Permit Holders

Welcome back! As you may know, construction on the South Lawn project started this summer. That construction has no direct impact on C1 permit holders. However, because the parking lot located on the South Lawn site was used to support Old Cabell Hall as an event venue, there will be an impact on the C1 parking lot on event nights. This impact is in addition to the reservation of the lot to support the six Saturday football games.

As in years past, teaching faculty with academic requirements that necessitate using the C1 lot on Saturdays during the football reservation or on Sundays or weeknights for the Cabell Hall reservations may make arrangements through the Provost's Office to remain in the C1 lot despite the event reservation. A special permit will be required for football Saturdays and a separate special permit will be required to remain in the lot on the nights the lot will be used for events at Old Cabell Hall.

If you have a need for either or both of these permits, please contact Deirdre David, ddavie@virginia.edu, 982-2016, in the Provost's Office to obtain the appropriate permits. Otherwise, please note that the lot will be posted on the day of the event with a vacate time.

Thank you for your understanding.
