

Safety Committee Meeting Minutes  
6 November 2008

Meeting Commenced 19:30 by Kristin Rector

- Briefly discussed in-house accident that occurred 10/28/2008
  - Decided we needed more information and will discuss next week
- Went over driver ride-along surveys; received 20
  - People think ride-alongs work for the most part
  - The “secretive” aspect is necessary but not effective; some suggestions include using non-SC drivers to do them
  - People don’t like being distracted, or talked to during ride-alongs
  - People sometimes don’t know whether they’ve received ride-alongs (due to lack of emails)
  - More informal/random safety ride-alongs
  - Scanning/Stopping is important
  - People couldn’t remember from training what they were about and especially new stuff
  - Drivers felt they wanted compliments and concerns
- Passed out new ride-along sheet and signed up
- Briefly discussed this month’s mass clinic
