Tuition and Fees

University tuition and fees, listed below, consist of tuition and required fees, as well as a student activities fee. Students enrolled for three or fewer regular credits, or research credits only, are assessed partial required fees and student activities fees. Students paying only the partial required fees do not receive student access to athletic events. The student activities fee subsidizes activities approved by the Student Council, such as publications, club sports, and service organizations. In addition, students enrolled in the Graduate Schools of Arts and Sciences, Architecture, Business, Education, Engineering, Law, and Nursing are required to pay special school fees. Tuition is based on the student’s residency classification (i.e., either Virginian or non-Virginian). University tuition and fees are subject to change.

Fixed Charge Schools

University students enrolled in fixed charge graduate schools are assessed tuition and fees based on their residency status and school of enrollment.

Payment and Late Payment The final date for payment of student account bills for University charges is printed on the bill mailed to the student. The payment due date for the fall semester is August 12, 2005; for the spring semester, it is usually in the first week of January. Failure to receive a bill does not waive the requirement for payment when due. Any student who fails to pay the amount due by the specified payment due date is charged as follows:

- Late fee $50 or 1.5% of the past-due amount (whichever is greater)
- Late fee for TAs, RAs, and Veterans $10

Students are billed for late fees in the next billing after registration. Requests for waivers of late fees due to extenuating circumstances are to be made in writing and must be received by Student Financial Services by the late fee due date. Failure to receive a bill is not a legitimate reason for late payment.

Checks returned for insufficient or uncollected funds are immediately redeposited by our bank. Payment of tuition and fees by a check that is returned from the bank will incur a late fee if the repayment is not received by the published deadlines. A $20 service charge will also be assessed. Postdated checks should not be submitted; each check is immediately processed for payment regardless of its date.

The University does not accept credit card payments for tuition, fees, housing or dining charges.

Dropping Courses - Deadline for Financial Credit For students enrolled in variable charge graduate schools to receive full financial credit for dropped courses, the course must be dropped by the end of the sixth week of the school term and the student must remain enrolled in at least one course at the University. The definition of the sixth school week corresponds to the definition set forth in the withdrawal refund schedule. This drop date is used only for determining financial credit and does not bear any correlation to the dates set forth by the schools for dropping courses without academic penalty.

Installment Payment Plan In conjunction with a private vendor, the University has developed an installment plan. For an annual fee of $60, tuition, fees, housing, and dining charges may be paid in monthly installments. The final date to enroll in the payment plan is July 29, 2005. For complete details, contact Tuition Management Systems at 800-722-4867 or www.afford.com.

Withdrawal from the University

Tuition and Fees Students who withdraw from the University are charged a percentage of the tuition and fees based on the school week within which the withdrawal occurs. A school week is defined as the period beginning on Monday and ending on the succeeding Sunday; the first school week of a semester is defined as that week within which the University registration concludes. The effective date of withdrawal is determined by the dean of the school in which the student is enrolled and is recorded on the official withdrawal form that the student must complete as part of the withdrawal process. The schedule for allocation of tuition and fees between amounts charged and amounts credited is listed below. This schedule is subject to change.

Any refunds owed to the student as a result of withdrawal will first be offset against any other amounts owed to the University.

Students who receive financial aid and withdraw prior to the completion of 61% of the enrollment period must repay Title IV funds (i.e., PLUS, Perkins, Subsidized, and Unsubsidized Loans; Pell, SEOG, HETAP, and CSAP Grants) to their sources. To determine what percentage of aid the student has earned, and what percentage must be returned, the financial aid office will divide the number of days the student attended by the number of days in the enrollment period. For details or examples, contact Student Financial Services.

Residence Hall Rent No refund of residence hall rent will be made in the event of withdrawal after the fifth class day of the semester. Upon vacating student housing facilities, the room key must be returned to the student accommodation office. The date the room key is returned to the student accommodation office is the effective termination date of the student housing contract.
