## Research.gov
Online portal led by NSF; goal is to streamline grants management services and other resources for multiple federal agencies in one location; includes Public Services section; NASA/USDA initially; others slated to come on board later.

## Grants.gov
Source to find and apply for federal grants. Established as part of 2002 E-Grants Initiative (origins in PL106-107, now Grants Policy Committee). Central storehouse for info on over 1000 grant programs and ~ 5B in annual awards. Managed by DHHS. Participating agency list can be found [here](https://www.grants.gov).

## Fast Lane
NSF’s website for proposal and award management.

## e-Grants
Department of Education’s portal site for electronic grants management. All Department web-based grant systems (for example e-payments, e-administration) may be accessed from here.

## eRACommons
NIH online interface where signing officials, PIs, trainees and post-docs can access/share administrative information relating to research grants. (NIH proposals are managed via grants.gov or paper process)

## NSPIRES
NASA’s proposal management system.

## FedConnect
Web portal that links government acquisition and grants professionals with vendors and grant applicant communities. Cloud computing system. Complementary to FedBizOpps and Grants.gov

## proposalCENTRAL
e-grantmaking site shared by government, non-profit, and private organizations. Examples include Juvenile Diabetes Research Foundation, Arthritis Foundation, American Cancer Society

## PubMed
Comprises more than 20 million citations for biomedical literature from MEDLINE, life science journals, and online books. Effective 4/7/2008, PIs required to ensure electronic versions of peer-reviewed manuscripts arising from NIH funding deposited in PubMed Central

## FedBizOpps
The single government-wide point-of-entry for federal procurement opportunities of more than $25,000.

## ClinicalTrials.gov
Registry of federally AND privately supported clinical trials in the US around the world. U.S. Public Law 110-85(Food and Drug Administration Amendments Act of 2007), Title VIII, Section 801 mandates sponsor or PI reporting of FDA regulated drugs, biologics and devices.
## List of Electronic Submission Systems and Tools

<table>
<thead>
<tr>
<th>System</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>NIH RePorter</strong></td>
<td>Electronic tool that allows users to search a repository of NIH-funded research projects, as well as access publications and patents resulting from NIH funding.</td>
</tr>
<tr>
<td><strong>USAspending.gov</strong></td>
<td>Website established by the Federal Funding Accountability and Transparency Act (Transparency Act); purpose is to have public resource on how tax dollars are spent (contracts, grants, loans and other types of spending). FFATA Subaward Reporting System (FSRS) is a reporting tool Federal prime awardees (prime contractors and prime grants recipients) use to capture and report subaward and executive compensation data for their first tier subawards.</td>
</tr>
<tr>
<td><strong>Other (system-to-system interfaces/web-based grants administration)</strong></td>
<td>COEUS, Cayuse, ClickCommerce, itWORKS, InfoEd, others, PeopleSoft, RAMS, Banner, home-grown</td>
</tr>
<tr>
<td><strong>SF424 forms</strong></td>
<td>Standard federal form with government-wide standard data sets and forms for grant application packages. Individual agencies may have their own instructions, for example, <a href="#">NIH SF424 forms and instructions</a>.</td>
</tr>
</tbody>
</table>
