ENDOCRINE CLINIC

DISCHARGE INSTRUCTIONS FOR BONIVA (IBANDRONATE)

ACTIVITY INSTRUCTIONS:

- Do not drive or operate heavy machinery for 24 hours.
- You may return to your normal activities depending on how you feel.

MEDICATIONS:

To help with symptoms from the infusion:

- Benadryl (Diphenhydramine) 25mg one (1) capsule every 8 hours as needed for 24 to 48 hours.
- Tylenol (Acetaminophen) 325mg tablets two (2) tablets by mouth every 4 to 6 hours as needed. This is for discomfort, pain and muscles aches.

FOLLOW-UP INSTRUCTIONS:

- Check your temperature at least twice a day (in the morning and before you retire for the night). Some patients may run a temperature ranging from 99°F to 101°F. The Tylenol should control the temperature.
- Call your doctor if your temperature continues at 101°F or higher. Please contact your physician's office Monday thru Friday from 8:00 am until 5:00 pm at _____. After hours and on weekends, please call 434-924-0000 and ask to speak to the Endocrine Fellow on call.
