

ANAL / RECTAL SURGERY

These instructions will help you take care of yourself at home.

DIET

Start with clear liquids after you reach home. Wait about 45 minutes and if you do not feel sick, try bland foods first and then progress to your usual diet.

ACTIVITIES

As tolerated. No driving when taking pain medication.

SPECIAL CARE NEEDED

Use a sitz bath or soak in warm water in a tub after bowel movements or at least 3 times a day for pain or discomfort. You may need to wear a pad in your undergarments for a few days for drainage and a small amount of bleeding

INFECTION

Watch for any sign of infection after surgery: **fever, chills, increased pain, redness, swelling, or foul smelling discharge from your wound.** Call your doctor at the first sign of any infection.

WHEN TO CALL YOUR DOCTOR

Call 434-924-0000 and ask for "Resident on call" for Dr. _____ if:

- No urine output eight (8) hours after surgery
- No bowel movement in three (3) days
- There are signs of infection as above
- Vomiting lasting more than four (4) hours
- Large amount of bleeding (more than one teaspoon) or swelling

Call 911 if you have chest pain or shortness of breath
