

## PEDIATRIC STRUT REMOVAL

These instructions will help you take care of yourself at home.

### DIET

Start with clear liquids after you reach home. Wait about 45 minutes and if you do not feel sick, try bland foods first and then progress to your usual diet.

### ACTIVITIES

Rest today. Gradually resume normal activity.

### SPECIAL CARE NEEDED

Keep incision clean and dry for 5 days. Allow steri-strips to fall off on their own.

### MEDICATIONS

Take the medicine that has been prescribed for you as directed.

### INFECTION

Watch for any sign of infection after surgery: **fever, chills, increased pain, redness, swelling, or foul smelling discharge from your wound.** Call your doctor at the first sign of any infection.

### WHEN TO CALL YOUR DOCTOR

Call 434-924-0000 and ask for "Resident on call" for Dr. \_\_\_\_\_ if:

- No urine output eight (8) hours after surgery
- No bowel movement in three (3) days
- There are signs of infection as above
- Vomiting lasting more than four (4) hours
- Large amount of bleeding or swelling

**In case of an emergency, call 911**
