COMMITTEE: Full Board

AGENDA ITEM: Policy Discussion on Restructured Higher Education Financial and Administrative Operations Act

BACKGROUND: On April 6, 2005, the General Assembly approved SB 1327 and HB 2866, as amended by the Governor, legislation which now constitutes the Restructured Higher Education Financial and Administrative Operations Act. This law developed out of initial efforts by the University, Virginia Tech, and the College of William and Mary to become “chartered” universities, a concept which attempted to redefine the relationship between public institutions of higher education and the Commonwealth that held as its premise the ability of Boards of Visitors to manage the financial and administrative operations of the institution and to be held accountable by the state for their performance. During the 2005 legislative session the concept was broadened to include all public institutions of higher education. The current model includes three levels of autonomy that can be achieved by an institution depending on its ability to manage certain operations. The Boards of Visitors are asked to commit to a list of statewide goals; institutions’ performance will be measured against a set of target benchmarks; and successful attainment of the benchmarks can be rewarded with certain financial incentives.

DISCUSSION: In its final form, the Restructured Higher Education Financial and Administrative Operations Act calls upon all public institutions of higher education to develop six-year plans that have three parts – academic, enrollment, and financial. The plans must be responsive to a set of eleven statewide goals enumerated in the legislation. In exchange for a commitment to these goals as evidenced by a resolution to be passed by the Board of Visitors prior to August 1, 2005, the institution will receive additional financial and administrative operational authority in thirteen specific areas. This is referred to as Level 1.

Further authority may be gained by negotiating a Memorandum of Understanding with the appropriate Cabinet Secretary in the
Governor's administration. This Memorandum of Understanding would cover a specific area in which the institution feels it has particular expertise and managerial ability. This is known as Level 2.

Finally, Level 3 pertains to those institutions that can demonstrate the ability to manage successfully the administrative and financial operations of the institution without jeopardizing its financial integrity and stability. The extent of the autonomy provided by the Commonwealth to a Level 3 institution is defined in the law and by a management agreement to be negotiated with the Governor. The University wishes to pursue Level 3 status and the required management agreement. To do so, the Board of Visitors must approve a resolution by an absolute two-thirds or more of its members, expressing the sense of the Board that the University is qualified to be, and should be, governed under Subchapter 3 or Level 3 of the Restructuring Act.
